1.	Project name	Strengthening decentralized Disaster Risk Reduction Management in Oromia Regional State – Ethiopia. Project ref: T05-EUTF-HOA-ET-72-03
2.	Short description of the project (200 words or less)	The aims to enhance the capacities and system of the NDRMC and the five regional states proactively and rapidly help communities cope and protected in the event of climatic stress and disaster. The EU support is gearing to capacitate the DRM institutions who not only have the mandate but also, at term, should have the role in the DRR management in the country. The overall strategy is that greater investments in early response and disaster risk management, such as supporting pre-agreed disaster planning, Early Warning System (EWS), preparedness and early response activities that would enable local government and communities to better withstand and cope when hit by shocks.
3.	Project objective (200 words or less)	<p>The Overall objective of this project is to strengthen households, communities and local authorities to manage and adapt to disasters and other risks, thus reducing their vulnerability to crises.</p> <p>The specific objective is to enhance the capacities and systems of the Oromia Region state to pro-actively, and rapidly help communities cope and protected in the event of climatic stress and conflicts</p>
4.	Implementing partners	Oromia NRS Disaster Risk Management Commission (ODRMC)
5.	Project beneficiaries	The primary beneficiaries are the local administrations and people living in areas affected by climate extremes, conflict and other shocks, including displaced populations and host communities, and in particular women and youth.
6.	Dates of implementation	48 months (01/12/2019 to 01/12/2023)
7.	Geographical areas of implementation	<p>ODRMC in Addis Ababa, Oromia, Ethiopia and specific target woredas</p> <p>List here target woredas by zones:</p> <p>ODRMC in Addis Ababa, Oromia, Ethiopia and specific target woredas</p> <ol style="list-style-type: none"> 1. Borena Zone: Arero, Miyoy, Dhas and Dirre (4) 2. Bale Zone: Berbere, Guradamole, Delomena and Medewalabu (4); 3. West- Hararghe Zone: Chiro, Odabultum, Gubakoricha and Tulo(4); 4. East- Hararghe Zone: Babile, Goro-gutu, Chinaksan and Jarso (4);

		5. North-Shoa Zone: Abich-gnaa and Wera-jarso woredas (2).
8.	Expected results	<p>Result 1: The capacities of regional and local (woreda) administrations strengthened to improve disaster risk management.</p> <p>Result 2: Effective DRR regional Contingency Funds (DRR-CF) are in place to reinforce preparedness and early response</p>
9.	Actual results	<p>R1.1 Woreda Contingency Plans and Disaster Profiles and Management Action Plans (WDMAP) in all the target woredas completed (tentatively 20 Woredas)</p> <p>R1.2 Early warning system harmonized (between regions and federal), tested and functional</p> <p>R1.3 Intervention packages to address the specific needs when shocks occur while taking into account the gender aspects and the needs and interests of peoples living with disabilities as well as for conflict resolution mechanisms and package intervention for the integration of the (weather induced) internally displaced persons (IDPs) in the host communities</p> <p>R1.4 Staffs at Regional, zonal, woreda and community trained on DRR policies and practices</p> <p>R1.5 The project implementation supported</p> <p>R2.1 Communities and resident IDPs living in areas at risk of climate disaster are better prepared to withstand future shocks.</p> <p>R2.2 Communities in needs when crisis occurs receive an early support as per the Contingency Plans before humanitarian aid is mobilized</p>
10.	Project budget	EUR 6,755,000 (EU 100%)
